

# Safety Data Sheet

## TASKI SNAPBACK

Revision: 2019-04-04

Version: 01.0

### SECTION 1: Identification of the substance/mixture and supplier

#### 1.1 Product identifier

**Product name:** TASKI SNAPBACK

#### 1.2 Recommended use and restrictions on use

**Identified uses:**

Floor cleaner

**Restrictions of use:**

Uses other than those identified are not recommended

#### 1.3 Details of the supplier

DIVERSEY NEW ZEALAND LTD.

24 Bancroft Crescent, Glendene, Auckland, 0602, New Zealand

Telephone: +64 9 813 9800; 0800 803 615 (toll free)

Fax: + 64 9 813 9801

Website: [www.diversey.com](http://www.diversey.com)

#### 1.4 Emergency telephone number

Seek medical advice (show the label or safety data sheet where possible)

Call 0800 243 622 (24 hrs)

### SECTION 2: Hazards identification

#### 2.1 Classification of the substance or mixture

##### HSNO Classification

6.3A - Irritating to the skin

6.4A - Irritating to the eye

9.1D - Slightly harmful to the aquatic environment or are otherwise designed for biocidal action

##### GHS Equivalent Classification

Skin irritation, Category 2

Serious eye irritation, Category 2

Acute aquatic toxicity, Category 3

#### 2.2 Label elements

**Signal word:** Warning

##### Hazard statements:

H315 + H319 - Causes skin and serious eye irritation.

H402 - Harmful to aquatic life.

##### Prevention statement(s):

P264 - Wash face, hands and any exposed skin thoroughly after handling.

P280 - Wear protective gloves.

##### Response statement(s):

P332 + P313 - If skin irritation occurs: Get medical advice or attention.

P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P337 + P313 - If eye irritation persists: Get medical advice or attention.

P321 - Specific treatment (see supplemental first aid instructions on this label).

## TASKI SNAPBACK

P362 - Take off contaminated clothing.

**Disposal statement(s):**

P501 - Dispose of unused content as chemical waste.

**2.3 Other hazards**

No other hazards known.

**2.4 Classification diluted product:**

Recommended maximum concentration (%): 20

**HSNO Classification**

6.3B - Mildly irritating to the skin

9.1D - Slightly harmful to the aquatic environment or are otherwise designed for biocidal action

**GHS Equivalent Classification**

Skin irritation, Category 3

Acute aquatic toxicity, Category 3

**2.5 Label elements diluted product**

**Dilution Signal word:** Warning.

H316 - Causes mild skin irritation.

H402 - Harmful to aquatic life.

**SECTION 3: Composition/information on ingredients****3.1 Substances / Mixtures**

| Ingredient(s)                 | CAS number | EC number | Weight percent |
|-------------------------------|------------|-----------|----------------|
| Alcohols, C12-14, ethoxylated | 68439-50-9 | 500-213-3 | 1-3            |
| pentasodium triphosphate      | 7758-29-4  | 231-838-7 | 1-3            |
| disodium metasilicate         | 6834-92-0  | 229-912-9 | 1-3            |

[4] Polymer.

Non-hazardous ingredients are the remainder and add up to 100%.

Workplace exposure limit(s), if available, are listed in subsection 8.1.

**SECTION 4: First aid measures****4.1 Description of first aid measures****Inhalation:**

Get medical attention or advice if you feel unwell.

**Skin contact:**

Wash skin with plenty of lukewarm, gently flowing water. If skin irritation occurs: Get medical advice or attention.

**Eye contact:**

Hold eyelids apart and flush eyes with plenty of lukewarm water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice or attention. If irritation occurs and persists, get medical attention.

**Ingestion:**

Rinse mouth. Immediately drink 1 glass of water. Never give anything by mouth to an unconscious person. Get medical attention or advice if you feel unwell.

**Self-protection of first aider:**

Consider personal protective equipment as indicated in subsection 8.2.

**First aid facilities:**

Eyewash facilities should be considered in a workplace where necessary.

**4.2 Most important symptoms and effects, both acute and delayed****Inhalation:**

No known effects or symptoms in normal use.

**Skin contact:**

Causes irritation.

**Eye contact:**

Causes severe irritation.

**Ingestion:**

No known effects or symptoms in normal use.

**4.3 Indication of any immediate medical attention and special treatment needed**

No information available on clinical testing and medical monitoring. Specific toxicological information on substances, if available, can be found in section 11.

**Poison Information Center:** Call 0800 764 766 (0800 POISON)

**SECTION 5: Firefighting measures****5.1 Extinguishing media**

Carbon dioxide. Dry powder. Water spray jet. Fight larger fires with water spray jet or alcohol-resistant foam.

## TASKI SNAPBACK

**5.2 Special hazards arising from the substance or mixture**

No special hazards known.

**5.3 Advice for firefighters**

As in any fire, wear self contained breathing apparatus and suitable protective clothing including gloves and eye/face protection.

**5.4 Hazchem code**

None allocated

**SECTION 6: Accidental release measures****6.1 Personal precautions, protective equipment and emergency procedures**

Wear suitable gloves.

**6.2 Environmental precautions**

Do not allow to enter drainage system, surface or ground water. Do not allow to enter the ground/soil. Dilute with plenty of water. Inform responsible authorities in case undiluted product reaches drainage system, surface or ground water or the ground/soil.

**6.3 Methods and material for containment and cleaning up**

Absorb with liquid-binding material (sand, diatomite, universal binders, sawdust).

**6.4 Reference to other sections**

For personal protective equipment see subsection 8.2. For disposal considerations see section 13.

**SECTION 7: Handling and storage****7.1 Precautions for safe handling****Measures to prevent fire and explosions:**

No special precautions required.

**Measures required to protect the environment:**

For environmental exposure controls see subsection 8.2.

**Advices on general occupational hygiene:**

Handle in accordance with good industrial hygiene and safety practice. Keep away from food, drink and animal feeding stuffs. Do not mix with other products unless advised by Diversey. Wash face, hands and any exposed skin thoroughly after handling. Take off contaminated clothing. Wash contaminated clothing before reuse. Avoid contact with eyes. Use only with adequate ventilation. See chapter 8.2, Exposure controls / Personal protection.

**7.2 Conditions for safe storage, including any incompatibilities**

Store in accordance with local and national regulations. Store in a closed container. Keep only in original packaging. For conditions to avoid see subsection 10.4. For incompatible materials see subsection 10.5.

**7.3 Specific end use(s)**

No specific advice for end use available.

**SECTION 8: Exposure controls/personal protection****8.1 Control parameters****Workplace exposure limits**

Air limit values, if available:

Biological limit values, if available:

**8.2 Exposure controls**

*The following information applies for the uses indicated in subsection 1.2 of the Safety Data Sheet. If available, please refer to the product information sheet for application and handling instructions. Normal use conditions are assumed for this section.*

**Recommended safety measures for handling the undiluted product:**

*Covering activities such as filling and transfer of product to application equipment, flasks or buckets*

**Appropriate engineering controls:**

If the product is diluted by using specific dosing systems with no risk of splashes or direct skin contact, the personal protection equipment as described in this section is not required.

**Appropriate organisational controls:**

Avoid direct contact and/or splashes where possible. Train personnel.

**Personal protective equipment****Eye / face protection:**

Safety glasses are not normally required. However, their use is recommended in those cases

## TASKI SNAPBACK

## SECTION 9: Physical and chemical properties

### 9.1 Information on basic physical and chemical properties

|  | Method / remark                                |
|--|--|
| <b>Physical State:</b> Liquid  |  |
| <b>Colour:</b> Clear, Off-White  |  |
| <b>Odour:</b> Slightly perfumed  |  |
| <b>Odour threshold:</b> Not applicable   |  |
| <b>pH:</b> $\approx 12.7$ (neat)   | ISO 4316                                       |
| <b>Dilution pH:</b> $> 12$ (10%)   | ISO 4316                                       |
| <b>Melting point/freezing point (°C):</b> Not determined   | Not relevant to classification of this product |
| <b>Initial boiling point and boiling range (°C):</b> Not determined                                  |  |
| <b>Flammability (liquid):</b> Not flammable.   |  |
| <b>Flash point (°C):</b> $> 93.3$  | closed cup                                     |
| <b>Sustained combustion:</b> Not applicable.<br>( UN Manual of Tests and Criteria, section 32, L.2 ) |  |
| <b>Evaporation rate:</b> Not determined  | Not relevant to classification of this product |
| <b>Flammability (solid, gas):</b> Not applicable to liquids  |  |
| <b>Upper/lower flammability limit (%):</b> Not determined  |  |
| <b>Vapour pressure:</b> Not determined   |  |
| <b>Vapour density:</b> Not determined  | Not relevant to classification of this product |
| <b>Relative density:</b> $\approx 1.039$ (20 °C)   |  |
| <b>Solubility in / Miscibility with Water:</b> Fully miscible  |  |
| <b>Partition coefficient: n-octanol/water</b> No information available.                              |  |
| Substance data, partition coefficient n-octanol/water (log Kow): see subsection 12.3                 |  |
| <b>Autoignition temperature:</b> Not determined  |  |
| <b>Decomposition temperature:</b> Not applicable.  |  |
| <b>Viscosity:</b> Not determined   |  |
| <b>Explosive properties:</b> Not explosive.  |  |
| <b>Oxidising properties:</b> Not oxidising   |  |

### 9.2 Other information

|  |
|--|
| <b>Surface tension (N/m):</b> Not determined |
| <b>Corrosion to metals:</b> Not corrosive    |

## SECTION 10: Stability and reactivity

### 10.1 Reactivity

No reactivity hazards known under normal storage and use conditions.

## TASKI SNAPBACK

**10.2 Chemical stability**

Stable under normal storage and use conditions.

**10.3 Possibility of hazardous reactions**

No hazardous reactions known under normal storage and use conditions.

**10.4 Conditions to avoid**

None known under normal storage and use conditions.

**10.5 Incompatible materials**

Reacts with acids.

**10.6 Hazardous decomposition products**

None known under normal storage and use conditions.

**SECTION 11: Toxicological information****11.1 Information on toxicological effects**

Mixture data:.

**Relevant calculated ATE(s):**

ATE - Oral (mg/kg): >5000

**Skin irritation and corrosivity**

**Result:** Skin irritant 2

**Method:** Classified according to Safe Work Australia Hazardous Chemical Information System (HCIS)

**Eye irritation and corrosivity**

**Result:** Eye irritant 2

**Method:** Classified according to Safe Work Australia Hazardous Chemical Information System (HCIS)

Substance data, where relevant and available, are listed below:.

**Acute toxicity**

Acute oral toxicity

| Ingredient(s)                 | Endpoint         | Value (mg/kg)     | Species | Method            | Exposure time (h) |
|-------------------------------|------------------|-------------------|---------|-------------------|-------------------|
| Alcohols, C12-14, ethoxylated |                  | No data available |         |                   |                   |
| pentasodium triphosphate      | LD <sub>0</sub>  | > 2000            | Rat     | OECD 401 (EU B.1) |                   |
| disodium metasilicate         | LD <sub>50</sub> | 770 - 820         | Mouse   | Method not given  |                   |

Acute dermal toxicity

| Ingredient(s)                 | Endpoint         | Value (mg/kg)     | Species | Method           | Exposure time (h) |
|-------------------------------|------------------|-------------------|---------|------------------|-------------------|
| Alcohols, C12-14, ethoxylated |                  | No data available |         |                  |                   |
| pentasodium triphosphate      | LD <sub>50</sub> | > 4640            | Rabbit  | Method not given |                   |
| disodium metasilicate         |                  | No data available |         |                  |                   |

Acute inhalative toxicity

| Ingredient(s)                 | Endpoint        | Value (mg/l)      | Species | Method       | Exposure time (h) |
|-------------------------------|-----------------|-------------------|---------|--------------|-------------------|
| Alcohols, C12-14, ethoxylated |                 | No data available |         |              |                   |
| pentasodium triphosphate      | LC <sub>0</sub> | 0.39 (dust)       | Rat     | EPA OPP 81-3 | 4                 |
| disodium metasilicate         |                 | No data available |         |              |                   |

**Irritation and corrosivity**

Skin irritation and corrosivity

| Ingredient(s)                 | Result            | Species | Method            | Exposure time |
|-------------------------------|-------------------|---------|-------------------|---------------|
| Alcohols, C12-14, ethoxylated | No data available |         |                   |               |
| pentasodium triphosphate      | Not irritant      | Rabbit  | OECD 404 (EU B.4) |               |
| disodium metasilicate         | Corrosive         |         | Method not given  |               |

Eye irritation and corrosivity

| Ingredient(s)                 | Result                    | Species | Method            | Exposure time |
|-------------------------------|---------------------------|---------|-------------------|---------------|
| Alcohols, C12-14, ethoxylated | No data available         |         |                   |               |
| pentasodium triphosphate      | Not corrosive or irritant | Rabbit  | OECD 405 (EU B.5) |               |
| disodium metasilicate         | Corrosive                 |         | Method not given  |               |

## TASKI SNAPBACK

## Respiratory tract irritation and corrosivity

| Ingredient(s)                 | Result            | Species | Method | Exposure time |
|-------------------------------|-------------------|---------|--------|---------------|
| Alcohols, C12-14, ethoxylated | No data available |         |        |               |
| pentasodium triphosphate      | No data available |         |        |               |
| disodium metasilicate         | No data available |         |        |               |

## Sensitisation

## Sensitisation by skin contact

| Ingredient(s)                 | Result            | Species | Method             | Exposure time (h) |
|-------------------------------|-------------------|---------|--------------------|-------------------|
| Alcohols, C12-14, ethoxylated | No data available |         |                    |                   |
| pentasodium triphosphate      | Not sensitising   | Mouse   | OECD 429 (EU B.42) |                   |
| disodium metasilicate         | No data available |         |                    |                   |

## Sensitisation by inhalation

| Ingredient(s)                 | Result            | Species | Method | Exposure time |
|-------------------------------|-------------------|---------|--------|---------------|
| Alcohols, C12-14, ethoxylated | No data available |         |        |               |
| pentasodium triphosphate      | No data available |         |        |               |
| disodium metasilicate         | No data available |         |        |               |

## CMR effects (carcinogenicity, mutagenicity and toxicity for reproduction)

## Mutagenicity

| Ingredient(s)                 | Result (in-vitro)                                   | Method (in-vitro)     | Result (in-vivo)                                   | Method (in-vivo)   |
|-------------------------------|---|-----------------------|--|--------------------|
| Alcohols, C12-14, ethoxylated | No data available                                   |                       | No data available                                  |                    |
| pentasodium triphosphate      | No evidence for mutagenicity, negative test results | OECD 471 (EU B.12/13) | No evidence of genotoxicity, negative test results | OECD 475 (EU B.11) |
| disodium metasilicate         | No data available                                   |                       | No data available                                  |                    |

## Carcinogenicity

| Ingredient(s)                 | Effect   |
|-------------------------------|--|
| Alcohols, C12-14, ethoxylated | No data available                                      |
| pentasodium triphosphate      | No evidence for carcinogenicity, negative test results |
| disodium metasilicate         | No data available                                      |

## Toxicity for reproduction

| Ingredient(s)                 | Endpoint | Specific effect        | Value (mg/kg bw/d) | Species | Method    | Exposure time | Remarks and other effects reported    |
|-------------------------------|----------|------------------------|--------------------|---------|-----------|---------------|---------------------------------------|
| Alcohols, C12-14, ethoxylated |          |                        | No data available  |         |           |               |                                       |
| pentasodium triphosphate      | NOAEL    | Developmental toxicity | 141                | Rat     | Not known |               | No evidence for reproductive toxicity |
| disodium metasilicate         |          |                        | No data available  |         |           |               |                                       |

## Repeated dose toxicity

## Sub-acute or sub-chronic oral toxicity

| Ingredient(s)                 | Endpoint | Value (mg/kg bw/d) | Species | Method           | Exposure time (days) | Specific effects and organs affected |
|-------------------------------|----------|--------------------|---------|------------------|----------------------|--------------------------------------|
| Alcohols, C12-14, ethoxylated |          | No data available  |         |                  |                      |                                      |
| pentasodium triphosphate      |          | No data available  |         |                  |                      |                                      |
| disodium metasilicate         | NOAEL    | > 227 - 237        | Rat     | Method not given |                      |                                      |

## Sub-chronic dermal toxicity

| Ingredient(s)                 | Endpoint | Value (mg/kg bw/d) | Species | Method | Exposure time (days) | Specific effects and organs affected |
|-------------------------------|----------|--------------------|---------|--------|----------------------|--------------------------------------|
| Alcohols, C12-14, ethoxylated |          | No data available  |         |        |                      |                                      |
| pentasodium triphosphate      |          | No data available  |         |        |                      |                                      |
| disodium metasilicate         |          | No data available  |         |        |                      |                                      |

## Sub-chronic inhalation toxicity

| Ingredient(s)                 | Endpoint | Value (mg/kg bw/d) | Species | Method | Exposure time (days) | Specific effects and organs affected |
|-------------------------------|----------|--------------------|---------|--------|----------------------|--------------------------------------|
| Alcohols, C12-14, ethoxylated |          | No data available  |         |        |                      |                                      |
| pentasodium triphosphate      |          | No data available  |         |        |                      |                                      |
| disodium metasilicate         |          | No data available  |         |        |                      |                                      |

## TASKI SNAPBACK

## Chronic toxicity

| Ingredient(s)                 | Exposure route | Endpoint | Value (mg/kg bw/d) | Species | Method                          | Exposure time | Specific effects and organs affected | Remark |
|-------------------------------|----------------|----------|--------------------|---------|---------------------------------|---------------|--------------------------------------|--------|
| Alcohols, C12-14, ethoxylated |                |          | No data available  |         |                                 |               |                                      |        |
| pentasodium triphosphate      | Oral           | NOAEL    | 225                | Rat     | Equivalent of OECD 412 (EU B.8) |               |                                      |        |
| disodium metasilicate         |                |          | No data available  |         |                                 |               |                                      |        |

## STOT-single exposure

| Ingredient(s)                 | Affected organ(s) |
|-------------------------------|-------------------|
| Alcohols, C12-14, ethoxylated | No data available |
| pentasodium triphosphate      | No data available |
| disodium metasilicate         | No data available |

## STOT-repeated exposure

| Ingredient(s)                 | Affected organ(s) |
|-------------------------------|-------------------|
| Alcohols, C12-14, ethoxylated | No data available |
| pentasodium triphosphate      | No data available |
| disodium metasilicate         | No data available |

## Aspiration hazard

Substances with an aspiration hazard (H304), if any, are listed in section 3. If relevant, see section 9 for dynamic viscosity and relative density of the product.

## Potential adverse health effects and symptoms

Effects and symptoms related to the product, if any, are listed in subsection 4.2.

## SECTION 12: Ecological information

## 12.1 Toxicity

No data is available on the mixture.

Substance data, where relevant and available, are listed below:

## Aquatic short-term toxicity

## Aquatic short-term toxicity - fish

| Ingredient(s)                 | Endpoint         | Value (mg/l)      | Species                  | Method           | Exposure time (h) |
|-------------------------------|------------------|-------------------|--------------------------|------------------|-------------------|
| Alcohols, C12-14, ethoxylated |                  | No data available |                          |                  |                   |
| pentasodium triphosphate      | LC <sub>50</sub> | 1850              | <i>Brachydanio rerio</i> | Method not given | 24                |
| disodium metasilicate         | LC <sub>50</sub> | 210               | <i>Brachydanio rerio</i> | Method not given | 96                |

## Aquatic short-term toxicity - crustacea

| Ingredient(s)                 | Endpoint         | Value (mg/l)      | Species                     | Method           | Exposure time (h) |
|-------------------------------|------------------|-------------------|-----------------------------|------------------|-------------------|
| Alcohols, C12-14, ethoxylated |                  | No data available |                             |                  |                   |
| pentasodium triphosphate      | EC <sub>50</sub> | > 100             | <i>Daphnia magna</i> Straus | 40 CFR 797.1930  | 48                |
| disodium metasilicate         | EC <sub>50</sub> | 1700              | <i>Daphnia</i>              | Method not given | 48                |

## Aquatic short-term toxicity - algae

| Ingredient(s)                 | Endpoint         | Value (mg/l)      | Species                        | Method                | Exposure time (h) |
|-------------------------------|------------------|-------------------|--------------------------------|-----------------------|-------------------|
| Alcohols, C12-14, ethoxylated |                  | No data available |                                |                       |                   |
| pentasodium triphosphate      | EC <sub>50</sub> | 160               | <i>Desmodesmus subspicatus</i> | ISO/TC147/SC5/WG5 N84 | 96                |
| disodium metasilicate         | EC <sub>50</sub> | 207               | <i>Chlorella pyrenoidosa</i>   | Method not given      | 72                |

## Aquatic short-term toxicity - marine species

| Ingredient(s)                 | Endpoint | Value (mg/l)      | Species | Method | Exposure time (days) |
|-------------------------------|----------|-------------------|---------|--------|----------------------|
| Alcohols, C12-14, ethoxylated |          | No data available |         |        |                      |
| pentasodium triphosphate      |          | No data available |         |        | -                    |

## TASKI SNAPBACK

|                       |  |                   |  |  |   |
|-----------------------|--|-------------------|--|--|---|
| disodium metasilicate |  | No data available |  |  | - |
|-----------------------|--|-------------------|--|--|---|

## Impact on sewage plants - toxicity to bacteria

| Ingredient(s)                 | Endpoint         | Value (mg/l)      | Inoculum         | Method           | Exposure time |
|-------------------------------|------------------|-------------------|------------------|------------------|---------------|
| Alcohols, C12-14, ethoxylated |                  | No data available |                  |                  |               |
| pentasodium triphosphate      |                  | No data available |                  |                  |               |
| disodium metasilicate         | EC <sub>50</sub> | > 100             | Activated sludge | Method not given | 3 hour(s)     |

## Aquatic long-term toxicity

## Aquatic long-term toxicity - fish

| Ingredient(s)                 | Endpoint | Value (mg/l)      | Species | Method   | Exposure time | Effects observed |
|-------------------------------|----------|-------------------|---------|----------|---------------|------------------|
| Alcohols, C12-14, ethoxylated |          | No data available |         |          |               |                  |
| pentasodium triphosphate      | LOEC     | 5                 |         | OECD 212 | 96 hour(s)    |                  |
| disodium metasilicate         |          | No data available |         |          |               |                  |

## Aquatic long-term toxicity - crustacea

| Ingredient(s)                 | Endpoint | Value (mg/l)      | Species | Method | Exposure time | Effects observed |
|-------------------------------|----------|-------------------|---------|--------|---------------|------------------|
| Alcohols, C12-14, ethoxylated |          | No data available |         |        |               |                  |
| pentasodium triphosphate      |          | No data available |         |        |               |                  |
| disodium metasilicate         |          | No data available |         |        |               |                  |

## Aquatic toxicity to other aquatic benthic organisms, including sediment-dwelling organisms, if available:

| Ingredient(s)                 | Endpoint | Value (mg/kg dw sediment) | Species | Method | Exposure time (days) | Effects observed |
|-------------------------------|----------|---------------------------|---------|--------|----------------------|------------------|
| Alcohols, C12-14, ethoxylated |          | No data available         |         |        |                      |                  |
| pentasodium triphosphate      |          | No data available         |         |        | -                    |                  |
| disodium metasilicate         |          | No data available         |         |        | -                    |                  |

## Terrestrial toxicity

## Terrestrial toxicity - soil invertebrates, including earthworms, if available:

| Ingredient(s)            | Endpoint | Value (mg/kg dw soil) | Species | Method | Exposure time (days) | Effects observed |
|--------------------------|----------|-----------------------|---------|--------|----------------------|------------------|
| pentasodium triphosphate |          | No data available     |         |        | -                    |                  |
| disodium metasilicate    |          | No data available     |         |        | -                    |                  |

## Terrestrial toxicity - plants, if available:

| Ingredient(s)            | Endpoint | Value (mg/kg dw soil) | Species | Method | Exposure time (days) | Effects observed |
|--------------------------|----------|-----------------------|---------|--------|----------------------|------------------|
| pentasodium triphosphate |          | No data available     |         |        | -                    |                  |
| disodium metasilicate    |          | No data available     |         |        | -                    |                  |

## Terrestrial toxicity - birds, if available:

| Ingredient(s)            | Endpoint | Value             | Species | Method | Exposure time (days) | Effects observed |
|--------------------------|----------|-------------------|---------|--------|----------------------|------------------|
| pentasodium triphosphate |          | No data available |         |        | -                    |                  |
| disodium metasilicate    |          | No data available |         |        | -                    |                  |

## Terrestrial toxicity - beneficial insects, if available:

| Ingredient(s)            | Endpoint | Value (mg/kg dw soil) | Species | Method | Exposure time (days) | Effects observed |
|--------------------------|----------|-----------------------|---------|--------|----------------------|------------------|
| pentasodium triphosphate |          | No data available     |         |        | -                    |                  |
| disodium metasilicate    |          | No data available     |         |        | -                    |                  |

## TASKI SNAPBACK

Terrestrial toxicity - soil bacteria, if available:

| Ingredient(s)            | Endpoint | Value (mg/kg dw soil) | Species | Method | Exposure time (days) | Effects observed |
|--------------------------|----------|-----------------------|---------|--------|----------------------|------------------|
| pentasodium triphosphate |          | No data available     |         |        | -                    |                  |
| disodium metasilicate    |          | No data available     |         |        | -                    |                  |

**12.2 Persistence and degradability****Abiotic degradation**

Abiotic degradation - photodegradation in air, if available:

Abiotic degradation - hydrolysis, if available:

Abiotic degradation - other processes, if available:

**Biodegradation**

Ready biodegradability - aerobic conditions

| Ingredient(s)                 | Inoculum | Analytical method | DT <sub>50</sub> | Method    | Evaluation                           |
|-------------------------------|----------|-------------------|------------------|-----------|--------------------------------------|
| Alcohols, C12-14, ethoxylated |          |                   |                  | OECD 301F | Readily biodegradable                |
| pentasodium triphosphate      |          |                   |                  |           | Not applicable (inorganic substance) |
| disodium metasilicate         |          |                   |                  |           | Not applicable (inorganic substance) |

Ready biodegradability - anaerobic and marine conditions, if available:

Degradation in relevant environmental compartments, if available:

**12.3 Bioaccumulative potential**Partition coefficient n-octanol/water (log K<sub>ow</sub>)

| Ingredient(s)                 | Value             | Method | Evaluation | Remark |
|-------------------------------|-------------------|--------|------------|--------|
| Alcohols, C12-14, ethoxylated | No data available |        |            |        |
| pentasodium triphosphate      | No data available |        |            |        |
| disodium metasilicate         | No data available |        |            |        |

Bioconcentration factor (BCF)

| Ingredient(s)                 | Value             | Species | Method | Evaluation | Remark |
|-------------------------------|-------------------|---------|--------|------------|--------|
| Alcohols, C12-14, ethoxylated | No data available |         |        |            |        |
| pentasodium triphosphate      | No data available |         |        |            |        |
| disodium metasilicate         | No data available |         |        |            |        |

**12.4 Mobility in soil**

Adsorption/Desorption to soil or sediment

| Ingredient(s)                 | Adsorption coefficient Log K <sub>oc</sub> | Desorption coefficient Log K <sub>oc</sub> (des) | Method | Soil/sediment type | Evaluation |
|-------------------------------|--|--|--------|--------------------|------------|
| Alcohols, C12-14, ethoxylated | No data available                          |  |        |                    |            |
| pentasodium triphosphate      | No data available                          |  |        |                    |            |
| disodium metasilicate         | No data available                          |  |        |                    |            |

**12.5 Other adverse effects**

No other adverse effects known.

**SECTION 13: Disposal considerations****13.1 Waste treatment methods****Waste from residues / unused products:**

The concentrated contents or contaminated packaging should be disposed of by a certified handler or according to the site permit. Release of waste to sewers is discouraged. The cleaned packaging material is suitable for energy recovery or recycling in line with local legislation.

**Empty packaging****Recommendation:****Suitable cleaning agents:**

Dispose of observing national or local regulations.  
Water, if necessary with cleaning agent.

**SECTION 14: Transport information****ADG, IMO/IMDG, ICAO/IATA****14.1 UN number:** Non-dangerous goods

## TASKI SNAPBACK

**14.2 UN proper shipping name:** Non-dangerous goods

**14.3 Transport hazard class(es):** Non-dangerous goods

**14.4 Packing group:** Non-dangerous goods

**14.5 Environmental hazards:** Non-dangerous goods

**14.6 Special precautions for user:** Non-dangerous goods

**14.7 Transport in bulk according to Annex II of MARPOL and the IBC Code:** Non-dangerous goods

**Other relevant information:**

**Hazchem code:** None allocated

**SECTION 15: Regulatory information****15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture**

**HSNO Approval Number**

HSR002530.

**Group standard**

Cleaning Products (Subsidiary Hazard) Group Standard 2017

**Inventory Listing(s)**

New Zealand: NZIoC (New Zealand Inventory of Chemicals)

All components are listed on the NZIoC inventory, or are exempt

**SECTION 16: Other information**

*The information in this document is based on our best present knowledge. However, it does not constitute a guarantee for any specific product features and does not establish a legally binding contract*

**SDS code:** MS32000584

**Version:** 01.0

**Revision:** 2019-04-04

**Abbreviations and acronyms:**

- DNEL - Derived No Effect Limit
- AUH - GHS Specific hazard statement
- PNEC - Predicted No Effect Concentration
- ATE - Acute Toxicity Estimate
- LD50 - Lethal Dose, 50% / Median Lethal dose
- LC50 - Lethal Concentration, 50% / Median Lethal Concentration
- EC50 - effective concentration, 50%
- NOEL - No observed effect level
- NOAEL - No observed adverse effect level
- STOT-RE - Specific target organ toxicity (repeated exposure)
- STOT-SE - Specific target organ toxicity (single exposure)
- EC No. - European Community Number
- OECD - Organization for Economic Cooperation and Development

**End of Safety Data Sheet**
