

# **Safety Data Sheet**

# **TASKI ROOM CARE R1 - PLUS**

Revision: 2023-12-13 Version: 02.0

# SECTION 1: Identification of the substance/mixture and supplier

1.1 Product identifier

Product name: TASKI ROOM CARE R1 - PLUS

1.2 Recommended use and restrictions on use

Identified uses: Toilet cleaner Restrictions of use:

Uses other than those identified are not recommended

1.3 Details of the supplier

DIVERSEY NEW ZEALAND LTD.

24 Bancroft Crescent, Glendene, Auckland, 0602, New Zealand

Telephone: 0800 803 615 (toll free)

Website: www.diversey.com

1.4 Emergency telephone number

Seek medical advice (show the label or safety data sheet where possible)

Call 0800 243 622 (24 hrs)

#### **SECTION 2: Hazards identification**

#### 2.1 Classification of the substance or mixture

Flammable liquids, Category 4 Specific target organ toxicity (single exposure), Category 3 Corrosive to metals, Category 1 Skin corrosion, Category 1C Serious eye damage, Category 1 Acute aquatic toxicity, Category 1

#### 2.2 Label elements

Signal word: Danger

#### Hazard statements:

H227 - Combustible liquid.

H314 - Causes severe skin burns and eye damage.

H335 - May cause respiratory irritation.

H400 - Very toxic to aquatic life.

H290 - May be corrosive to metals.

### Prevention statement(s):

P210 - Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.

P233 - Keep container tightly closed.

P234 - Keep only in original packaging.

P261 - Avoid breathing vapours.

P264 - Wash face, hands and any exposed skin thoroughly after handling.

P271 - Use only outdoors or in a well-ventilated area.

P280 - Wear protective gloves, protective clothing and eye or face protection.

Response statement(s):
P301 + P330 + P331 - IF SWALLOWED: Rinse mouth. Do NOT induce vomiting.

P303 + P361 + P353 - IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water or shower.

P304 + P340 - IF INHALED: Remove person to fresh air and keep comfortable for breathing.

P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P310 - Immediately call a POISON CENTRE, doctor or physician.

P321 - Specific treatment (see supplemental first aid instructions on this label).

P363 - Wash contaminated clothing before reuse.

P370 + P378 - In case of fire: Use chemical powder to extinguish.

P390 - Absorb spillage to prevent material damage.

#### Storage statement(s):

P403 + P233 - Store in a well-ventilated place. Keep container tightly closed.

P403 + P235 - Store in a well-ventilated place. Keep cool.

P405 - Store locked up.

P406 - Store in corrosive-resistant container with a resistant inner liner.

#### Disposal statement(s):

P501 - Dispose of unused content as chemical waste.

#### 2.3 Other hazards

No other hazards known.

#### 2.4 Classification diluted product:

Recommended maximum concentration (% w/w): 9.09

Skin irritation, Category 3 Eye irritation, Category 2 Acute aquatic toxicity, Category 2

#### 2.5 Label elements diluted product

Signal word: Warning.

#### Hazard statements:

H316 - Causes mild skin irritation.

H319 - Causes serious eye irritation.

H401 - Toxic to aquatic life.

#### Precautionary statements:

P264 - Wash face, hands and any exposed skin thoroughly after handling.

P305 + P351 + P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P337 + P313 - If eye irritation persists: Get medical advice or attention.

P501 - Dispose of unused content as chemical waste.

# SECTION 3: Composition/information on ingredients

#### 3.1 Substances / Mixtures

| Ingredient(s)   | CAS#      | EC number             | Weight percent |
|---|-----------|-----------------------|----------------|
| Citric acid   | 77-92-9   | 201-069-1             | 10-30          |
| quaternary ammonium compounds, trimethyltallow alkyl, chlorides | 8030-78-2 | 232-447-4             | 3-10           |
| propane-1,2-diol  | 57-55-6   | 200-338-0             | 3-10           |
| Propan-2-ol   | 67-63-0   | 200-661-7             | 3-10           |
| sodium xylene sulphonate  | 1300-72-7 | 215-090-9 / 701-037-1 | 1-3            |
| d-limonene  | 5989-27-5 | 227-813-5             | < 0.01         |

[4] Polymer

Non-hazardous ingredients are the remainder and add up to 100%.

Workplace exposure limit(s), if available, are listed in subsection 8.1.

# **SECTION 4: First aid measures**

4.1 Description of first aid measures

**General Information:** Symptoms of intoxication may even occur after several hours. It is recommended to continue

medical observation for at least 48 hours after the incident. If unconscious place in recovery position and seek medical advice. Provide fresh air. If breathing is irregular or stopped, administer artificial respiration. No mouth-to-mouth or mouth-to-nose resuscitation. Use Ambu bag or ventilator.

Inhalation: Remove person to fresh air and keep comfortable for breathing. Get medical attention or advice if

you feel unwell.

Skin contact: Take off immediately all contaminated clothing and wash it before reuse. Immediately call a

POISON CENTRE, doctor or physician.

Eye contact: Hold eyelids apart and flush eyes with plenty of lukewarm water for at least 15 minutes. Remove

contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTRE,

doctor or physician.

Ingestion: Rinse mouth. Immediately drink 1 glass of water. Never give anything by mouth to an unconscious

person. Do NOT induce vomiting. Keep at rest. Immediately call a POISON CENTRE, doctor or

physician.

**Self-protection of first aider:** Consider personal protective equipment as indicated in subsection 8.2.

First aid facilities: Shower and eyewash facilities should be considered in a workplace where necessary. Eyewash

facilities should be considered in a workplace where necessary.

4.2 Most important symptoms and effects, both acute and delayed

**Inhalation:** May cause respiratory irritation.

**Skin contact:** Causes severe burns.

**Eye contact:** Causes severe or permanent damage.

Ingestion: Ingestion will lead to a strong caustic effect on mouth and throat and to the danger of perforation of

oesophagus and stomach.

#### 4.3 Indication of any immediate medical attention and special treatment needed

No information available on clinical testing and medical monitoring. Specific toxicological information on substances, if available, can be found in section 11

Poison Information Center: Call 0800 764 766 (0800 POISON)

### SECTION 5: Firefighting measures

#### 5.1 Extinguishing media

Carbon dioxide. Dry powder. Water spray jet. Fight larger fires with water spray jet or alcohol-resistant foam.

### 5.2 Special hazards arising from the substance or mixture

No special hazards known.

#### 5.3 Advice for firefighters

As in any fire, wear self contained breathing apparatus and suitable protective clothing including gloves and eye/face protection.

#### 5.4 Hazchem code

2X

- 2 Fine water spray
- $\ensuremath{\mathsf{X}}$  Liquid-tight chemical protective clothing and breathing apparatus. Contain.

### SECTION 6: Accidental release measures

#### 6.1 Personal precautions, protective equipment and emergency procedures

Turn off all sources of ignition. Ventilate the area. Ensure adequate ventilation. Do not breathe dust or vapour. Wear suitable protective clothing, gloves and eye/face protection.

# 6.2 Environmental precautions

Do not allow to enter drainage system, surface or ground water. Do not allow to enter the ground/soil. Dilute with plenty of water. Inform responsible authorities in case undiluted product reaches drainage system, surface or ground water or the ground/soil.

#### 6.3 Methods and material for containment and cleaning up

Ensure adequate ventilation. Dyke to collect large liquid spills. Use neutralising agent. Absorb with liquid-binding material (sand, diatomite, universal binders). Do not place spilled materials back into the original container. Collect in closed and suitable containers for disposal.

#### 6.4 Reference to other sections

For personal protective equipment see subsection 8.2. For disposal considerations see section 13.

# SECTION 7: Handling and storage

#### 7.1 Precautions for safe handling

#### Measures to prevent fire and explosions:

Keep away from flames and hot surfaces. No smoking. Keep away from heat. Take precautionary measures against static discharges.

#### Measures required to protect the environment:

For environmental exposure controls see subsection 8.2.

#### Advices on general occupational hygiene:

Handle in accordance with good industrial hygiene and safety practice. Keep away from food, drink and animal feeding stuffs. Do not mix with other products unless adviced by Diversey. Wash face, hands and any exposed skin thoroughly after handling. Take off immediately all contaminated clothing. Wash contaminated clothing before reuse. Avoid contact with skin and eyes. Do not breathe vapours. Use only with adequate ventilation. See chapter 8.2, Exposure controls / Personal protection.

#### 7.2 Conditions for safe storage, including any incompatibilities

Store in accordance with local and national regulations. Store in a well-ventilated place. Store in a closed container. Keep only in original packaging. Keep cool. Keep away from heat and direct sunlight.

For conditions to avoid see subsection 10.4. For incompatible materials see subsection 10.5.

#### 7.3 Specific end use(s)

No specific advice for end use available.

# SECTION 8: Exposure controls/personal protection

# 8.1 Control parameters Workplace exposure limits

Air limit values, if available:

| Ingredient(s)    | Long term value(s)    | Short term value(s)    | Ceiling value(s) |
|------------------|-----------------------|------------------------|------------------|
| propane-1,2-diol | 150 ppm               |                        |                  |
|                  | 474 mg/m <sup>3</sup> |                        |                  |
|                  | 10 mg/m <sup>3</sup>  |                        |                  |
| Propan-2-ol      | 400 ppm               | 500 ppm                |                  |
|                  | 983 mg/m <sup>3</sup> | 1230 mg/m <sup>3</sup> |                  |

Biological limit values, if available:

#### 8.2 Exposure controls

The following information applies for the uses indicated in subsection 1.2 of the Safety Data Sheet. If available, please refer to the product information sheet for application and handling instructions. Normal use conditions are assumed for this section.

Recommended safety measures for handling the <u>undiluted</u> product:

Covering activities such as filling and transfer of product to application equipment, flasks or buckets

Appropriate engineering controls: If the product is diluted by using specific dosing systems with no risk of splashes or direct skin

contact, the personal protection equipment as described in this section is not required.

Appropriate organisational controls: Avoid direct contact and/or splashes where possible. Train personnel.

Personal protective equipment

**Body protection:** 

**Eye / face protection:** Safety glasses or goggles (AS/NZS 1337.1). The use of a full-face shield or other full-face

Hand protection: protection is strongly recommended when handling open containers or if splashes may occur.

Chemical-resistant protective gloves (AS/NZS 2161.10). Verify instructions regarding permeability and breakthrough time, as provided by the gloves supplier. Consider specific local use conditions,

such as risk of splashes, cuts, contact time and temperature.

Suggested gloves for prolonged contact: Material: butyl rubber Penetration time: ≥ 480 min Material

thickness: ≥ 0.7 mm

Suggested gloves for protection against splashes: Material: nitrile rubber Penetration time: ≥ 30 min

Material thickness: ≥ 0.4 mm

In consultation with the supplier of protective gloves a different type providing similar protection may be chosen.

Wear chemical-resistant clothing and boots in case direct dermal exposure and/or splashes may

occur (EN 14605). **Respiratory protection:**Respiratory protection is not normally required. However, inhalation of vapour, spray, gas or

aerosols should be avoided.

Environmental exposure controls: Should not reach sewage water or drainage ditch undiluted or unneutralised.

Recommended safety measures for handling the <u>diluted</u> product:

Recommended maximum concentration (% w/w): 9.09

Appropriate engineering controls: No special requirements under normal use conditions.

Appropriate organisational controls: Avoid direct contact and/or splashes where possible. Train personnel.

Personal protective equipment

No special requirements under normal use conditions. Eye / face protection: Hand protection: No special requirements under normal use conditions. Body protection: No special requirements under normal use conditions Respiratory protection: No special requirements under normal use conditions.

**Environmental exposure controls:** No special requirements under normal use conditions.

# SECTION 9: Physical and chemical properties

#### 9.1 Information on basic physical and chemical properties

Method / remark

Physical state: Liquid Colour: Clear , Dark , Odour: Slightly perfumed Odour threshold: Not applicable

**pH:** ≈ 0.8 (neat) ISO 4316 ISO 4316 **Dilution pH:** < 2 (10%) Not relevant to classification of this product

Melting point/freezing point (°C): Not determined

Initial boiling point and boiling range (°C): Not determined

Flammability (liquid): Combustible. Flash point (°C): Not applicable. closed cup

Sustained combustion: The product does not sustain combustion UN Manual of Tests and Criteria, section 32, L.2 Weight

of evidence

Not applicable to liquids.

(UN Manual of Tests and Criteria, section 32, L.2)

Evaporation rate: Not determined Not relevant to classification of this product

Flammability (solid, gas): Not applicable to liquids

Lower and upper explosion limit/flammability limit (%): Not determined

Vapour pressure: Not determined

Relative density: ≈ 1.14 (20 °C) OECD 109 (EU A.3) Not relevant to classification of this product

Relative vapour density: Not determined. Particle characteristics: No data available.

Solubility in / Miscibility with water: Fully miscible

Partition coefficient: n-octanol/water No information available.

Substance data, partition coefficient n-octanol/water (log Kow): see subsection 12.3

Autoignition temperature: Not determined **Decomposition temperature:** Not applicable.

Viscosity: ≈ 60 mPa.s (20 °C) Not relevant to classification of this product

**Explosive properties:** Not explosive. Vapours may form explosive mixtures with air.

Oxidising properties: Not oxidising. Not oxidising, based on substance properties

9.2 Other information

Surface tension (N/m): Not determined

Corrosion to metals: Corrosive Weight of evidence

#### SECTION 10: Stability and reactivity

#### 10.1 Reactivity

No reactivity hazards known under normal storage and use conditions.

#### 10.2 Chemical stability

Stable under normal storage and use conditions.

#### 10.3 Possibility of hazardous reactions

No hazardous reactions known under normal storage and use conditions.

#### 10.4 Conditions to avoid

None known under normal storage and use conditions.

#### 10.5 Incompatible materials

Reacts with alkali and metals. Keep away from products containing chlorine-based bleaching agents or sulphites.

#### 10.6 Hazardous decomposition products

None known under normal storage and use conditions.

# **SECTION 11: Toxicological information**

#### 11.1 Information on toxicological effects

Mixture data: .

Relevant calculated ATE(s): ATE - Oral (mg/kg): >5000 ATE - Dermal (mg/kg): >5000

Substance data, where relevant and available, are listed below:.

# Acute toxicity Acute oral toxicity

| Ingredient(s)   | Endpoint | Value<br>(mg/kg)     | Species | Method            | Exposure time (h) |
|---|----------|----------------------|---------|-------------------|-------------------|
| Citric acid   | LD 50    | 5400-11700           | Rat     | Method not given  |                   |
| quaternary ammonium compounds, trimethyltallow alkyl, chlorides | LD 50    | 300-2000             | Rat     | Method not given  |                   |
| propane-1,2-diol  | LD 50    | > 10000              | Rat     | Method not given  |                   |
| Propan-2-ol   | LD 50    | 5840                 | Rat     | OECD 401 (EU B.1) |                   |
| sodium xylene sulphonate  | LD 50    | > 7200               | Rat     | OECD 401 (EU B.1) |                   |
| amines, dimethyltallow alkyl                                    |          | No data<br>available |         |                   |                   |

Acute dermal toxicity

| Ingredient(s)   | Endpoint | Value<br>(mg/kg)     | Species | Method            | Exposure time (h) |
|---|----------|----------------------|---------|-------------------|-------------------|
| Citric acid   | LD 50    | > 2000               | Rat     | Method not given  |                   |
| quaternary ammonium compounds, trimethyltallow alkyl, chlorides | LD 50    | 200-1000             |         |                   |                   |
| propane-1,2-diol  | LD 50    | > 2000               | Rabbit  | Method not given  |                   |
| Propan-2-ol   | LD 50    | > 2000               | Rabbit  | Method not given  |                   |
| sodium xylene sulphonate  | LD 50    | > 2000               | Rabbit  | OECD 402 (EU B.3) |                   |
| amines, dimethyltallow alkyl                                    |          | No data<br>available |         |                   |                   |

Acute inhalative toxicity

| Ingredient(s)   | Endpoint        | Value<br>(mg/l)                           | Species | Method             | Exposure time (h) |
|---|-----------------|---|---------|--------------------|-------------------|
| Citric acid   |                 | No data<br>available                      |         |                    |                   |
| quaternary ammonium compounds, trimethyltallow alkyl, chlorides |                 | No data<br>available                      |         |                    |                   |

#### Irritation and corrosivity

Skin irritation and corrosivity

| Ingredient(s)   | Result            | Species | Method            | Exposure time |
|---|-------------------|---------|-------------------|---------------|
| Citric acid   | Not irritant      | Rabbit  | OECD 404 (EU B.4) |               |
| quaternary ammonium compounds, trimethyltallow alkyl, chlorides | Corrosive         |         |                   |               |
| propane-1,2-diol  | Not irritant      | Rabbit  | OECD 404 (EU B.4) |               |
| Propan-2-ol   | Not irritant      | Rabbit  | OECD 404 (EU B.4) |               |
| sodium xylene sulphonate  | Mild irritant     | Rabbit  | OECD 404 (EU B.4) |               |
| amines, dimethyltallow alkyl                                    | No data available |         |                   |               |

Eye irritation and corrosivity

| Lyo mitation and correctivity |               |         |                   |               |
|-------------------------------|---------------|---------|-------------------|---------------|
| Ingredient(s)                 | Result        | Species | Method            | Exposure time |
| Citric acid                   | Severe damage | Rabbit  | OECD 405 (EU B.5) |               |
|                               | Irritant      |         |                   |               |

| quaternary ammonium compounds, trimethyltallow alkyl, chlorides | No data available            |        |                   |  |
|---|------------------------------|--------|-------------------|--|
| propane-1,2-diol  | Not corrosive or<br>irritant | Rabbit | OECD 405 (EU B.5) |  |
| Propan-2-ol   | Irritant                     | Rabbit | OECD 405 (EU B.5) |  |
| sodium xylene sulphonate  | Irritant                     | Rabbit | OECD 405 (EU B.5) |  |
| amines, dimethyltallow alkyl                                    | No data available            |        |                   |  |

Respiratory tract irritation and corrosivity

| Ingredient(s)   | Result            | Species | Method | Exposure time |
|---|-------------------|---------|--------|---------------|
| Citric acid   | No data available |         |        |               |
| quaternary ammonium compounds, trimethyltallow alkyl, chlorides | No data available |         |        |               |
| propane-1,2-diol  | No data available |         |        |               |
| Propan-2-ol   | No data available |         |        |               |
| sodium xylene sulphonate  | No data available |         |        |               |
| amines, dimethyltallow alkyl                                    | No data available |         |        |               |

Sensitisation Sensitisation by skin contact

| Ingredient(s)   | Result            | Species    | Method                              | Exposure time (h) |
|---|-------------------|------------|-------------------------------------|-------------------|
| Citric acid   | Not sensitising   | Guinea pig | Method not given                    |                   |
| quaternary ammonium compounds, trimethyltallow alkyl, chlorides | No data available |            |                                     |                   |
| propane-1,2-diol  | Not sensitising   | Guinea pig | OECD 406 (EU B.6) /<br>GPMT         |                   |
| Propan-2-ol   | Not sensitising   | Guinea pig | OECD 406 (EU B.6) /<br>Buehler test |                   |
| sodium xylene sulphonate  | Not sensitising   | Guinea pig | OECD 406 (EU B.6) /<br>GPMT         |                   |
| amines, dimethyltallow alkyl                                    | No data available |            |                                     |                   |

Sensitisation by inhalation

| Ingredient(s)   | Result            | Species | Method | Exposure time |
|---|-------------------|---------|--------|---------------|
| Citric acid   | No data available |         |        |               |
| quaternary ammonium compounds, trimethyltallow alkyl, chlorides | No data available |         |        |               |

| amines, dimethyltallow alkyl                                    | No data available |

#### **Aspiration hazard**

Substances with an aspiration hazard (H304), if any, are listed in section 3. If relevant, see section 9 for dynamic viscosity and relative density of the product.

#### Potential adverse health effects and symptoms

Effects and symptoms related to the product, if any, are listed in subsection 4.2.

# **SECTION 12: Ecological information**

#### 12.1 Toxicity

No data is available on the mixture.

Substance data, where relevant and available, are listed below:

#### Aquatic short-term toxicity

Aquatic short-term toxicity - fish

| Ingredient(s)   | Endpoint | Value<br>(mg/l)      | Species                | Method           | Exposure time (h) |
|---|----------|----------------------|------------------------|------------------|-------------------|
| Citric acid   | LC 50    | 440                  | Leuciscus idus         | Method not given | 48                |
| quaternary ammonium compounds, trimethyltallow alkyl, chlorides | LC 50    | > 0.1-1              | Oncorhynchus<br>mykiss | Method not given | 96                |
| propane-1,2-diol  | LC 50    | > 1000               | Fish                   | Method not given | 24                |
| Propan-2-ol   | LC 50    | > 100                | Pimephales promelas    | Method not given | 48                |
| sodium xylene sulphonate  | LC 50    | > 1000               | Oncorhynchus<br>mykiss | Method not given | 96                |
| amines, dimethyltallow alkyl                                    |          | No data<br>available |                        |                  |                   |

Aquatic short-term toxicity - crustacea

| Ingredient(s)   | Endpoint | Value<br>(mg/l)      | Species                 | Method           | Exposure time (h) |
|---|----------|----------------------|-------------------------|------------------|-------------------|

| sodium xylene sulphonate  | No data available                    |   |        |                       |  |
| amines, dimethyltallow alkyl                                    | No data available                    |   |        |                       |  |

# 12.5 Other adverse effects

No other adverse effects known.

# **SECTION 13: Disposal considerations**

13.1 Waste treatment methods Waste from residues / unused products:

The concentrated contents or contaminated packaging should be disposed of by a certified handler or according to the site permit. Release of waste to sewers is discouraged. The cleaned packaging material is suitable for energy recovery or recycling in line with local legislation.

Empty packaging

Recommendation: Dispose of observing national or local regulations.

Suitable cleaning agents: Water, if necessary with cleaning agent.

# SECTION 14: Transport information

ADG, IMO/IMDG, ICAO/IATA

14.1 UN number or ID number: 3265
14.2 UN proper shipping name:

Corrosive liquid, acidic, organic, n.o.s. (citric acid, tallowtrimethylammoniumchloride)

14.3 Transport hazard class(es):

Transport hazard class (and subsidiary risks): 8

14.4 Packing group: III

14.5 Environmental hazards:

Environmentally hazardous: Yes

Marine pollutant: Yes

14.6 Special precautions for user: None known.

14.7 Maritime transport in bulk according to IMO instruments: The product is not transported in bulk tankers.

Other relevant information:

Hazchem code: 2X

This product has been classified, labelled and package in accordance with the requirements of the NZ Land Transport Rule: Dangerous Goods, ADG, and the provisions of the IMDG Code.

Transport regulations include special provisions for certain classes of dangerous goods packed in limited quantities.

### **SECTION 15: Regulatory information**

# 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

HSNO Approval Number HSR002527.

Group standard
Cleaning Products (Corrosive, Combustible) Group Standard 2020
Inventory Listing(s)
New Zealand: NZIoC (New Zealand Inventory of Chemicals)
All components are listed on the NZIoC inventory, or are exempt

**HSNO Classification** 3.1D - Flammable liquids: low hazard

6.1E - Acutely toxic (inhalation) 8.1A - Corrosive to metals 8.2C - Corrosive to dermal tissue 8.3A - Corrosive to ocular tissue

9.1A - Very ecotoxic in the aquatic environment

### **SECTION 16: Other information**

The information in this document is based on our best present knowledge. However, it does not constitute a guarantee for any specific product features and does not establish a legally binding contract

**SDS code:** MS3200578 **Version:** 02.0 **Revision:** 2023-12-13

#### Reason for revision:

This data sheet contains changes from the previous version in section(s):, 2, 5, 8

Exposure standards - Time Weighted Average (TWA) or Workplace Exposure Standard (WES) (NZ): Exposure standards are established on the premise of an 8 hour work period of normal intensity, under normal climatic conditions and where a 16 hour break between shifts exists to enable the body to eliminate absorbed contaminants. In the following circumstances, exposure standards must be reduced: strenuous work conditions; hot, humid climates; high altitude conditions; extended shifts (which increase the exposure period and shorten the period of recuperation).

#### Abbreviations and acronyms:

- DNEL Derived No Effect Limit
- AUH Non GHS hazard statement
- PNEC Predicted No Effect Concentration

- ATE Acute Toxicity Estimate
   LD50 Lethal Dose, 50% / Median Lethal dose
   LC50 Lethal Concentration, 50% / Median Lethal Concentration
   EC50 effective concentration, 50%
   NOEL No observed effect level
   NOAEL No observed adverse effect level
   STOT-RE Specific target organ toxicity (repeated exposure)
   STOT-SE Specific target organ toxicity (single exposure)
   EC No. European Community Number
   OECD Organisation for Economic Cooperation and Development
